### 描述

主检页面,如果颜色预警为(危急值、A、B、C、MDT),那么阳性诊断需要标记为‘主要’

The screenshot displays a medical software interface with a navigation bar at the top. Below the navigation bar, there are several tabs and filters. The main content area is divided into two columns. The left column shows a list of lab results, including '身高、体重、血压' (Height, Weight, Blood Pressure) and '腰围' (Waist Circumference). The right column shows medical advice (医学建议) for each result. A red box highlights the 'C类' (Class C) status in the '异常预警' (Abnormal Alerts) column, which is linked to the '主要' (Main) status in the '阳性诊断' (Positive Diagnosis) column. The interface also includes a '历史结果对比' (Historical Results Comparison) button and a '报告医生: 胡晓雷; 报告时间: 2024-11-02 08:00' (Reporting Doctor: Hu Xiaolei; Reporting Time: 2024-11-02 08:00) field.
